Art Unit: 3651

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-5 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 recites the limitation "the safety switches" in line 25. There is insufficient antecedent basis for this limitation in the claim. Line 13 sets forth that there is only a single switch.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1 and 3-5 are rejected under 35 U.S.C. 102(b) as being anticipated by Holfig et al. (U.S. Patent 5,398,800).

Holfig et al. show a comb plate beam 2 on which a comb plate plate 3 is mounted with a support beam 1 juxtaposed thereto. The beam 2 can displace in a horizontal or vertical direction such that switches 16 or 18 are activated so as stop operation of the shown passenger conveyor.

Re claim 3, the beam is supported so as to be guided as it slides back or moves up.

Re claim 4, shown are rollers 7 and 8.

Re claim 5, the rollers are friction reducing means.

Art Unit: 3651

Claim 2 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Any inquiry concerning this communication should be directed to James R Bidwell at telephone number (703)308-1144.
